Ordering Information

Catalog	Description
HF-PMK1	Pendent Mount Luminaire Kit

HF-PMK1 allows fluorescent highbays without pendant mount lances to be pendant mounted. Plate must be installed from inside and power supply wires re-routed. For ease of installation it is recommended to order fixture factory configured for J-Box (Factory Installed Option J); see Highbay Fluorescent spec sheet, Factory Installed Option 'J'.

Note:
 HF-PMK1 is compatible with the hole pattern depicted to the left. If the fixture has lances, the HF-PMK2 is needed.

Specifications subject to change without notice.
