Description

The RW54 series residential wrap operates 2 lamps. This fixture has an all white steel housing and end plates with a clear, prismatic acrylic lens for optimal illumination. With an interlocking design, this fixture is easy to maintain and clean. This fixture is a perfect task lighting solution for garages, workshops, or storage areas.

Features

- Durable steel housing and end plates
- Clear acrylic prismatic diffuser with linear side prisms to control brightness
- Diffuser hinges open on either side for easy maintenance
- Energy efficient T8 fluorescent technology
- Requires two 4' T8 fluorescent linear lamps (sold separately)
- Instant-on, quiet operation
